

Are you planning to receive your first COVID-19 vaccination?

**You may be eligible
to join a study to look at
people's immune response to the
COVID-19 vaccination.**

Key requirements

- Adults, ages 18 - 89,
- who are planning to receive their first COVID-19 vaccination.
- People who are pregnant are not eligible to join.

- Participants will provide a blood sample before their first vaccination and at several times thereafter.
- All clinic visits will be at University Hospitals Cleveland Medical Center.
- Compensation provided.
