

COVID-19 STUDY

for outpatients w/coronavirus

Have you recently been diagnosed with coronavirus in northeast Ohio? You may be eligible to join a research study at Case Western Reserve/University Hospitals to look at how the virus interacts with a person's body, particularly the mouth.

There are two required and five optional clinic visits where blood, oral, nasal & saliva samples will be taken.

The trial is for adults, age 18+, who must enroll into the trial within 7 days of the onset of symptoms and the positive coronavirus test.

Compensation provided. To find out more and to inquire about enrolling, please contact us at

216-844-4444 or at
covid19research@uhhospitals.org
