

A study for people living with someone with COVID-19

Has someone you are living with recently been diagnosed with COVID-19? You may be eligible to join a research study at Case Western Reserve/ University Hospitals to look at how a person's immune system reacts to exposure to SARS-CoV-2, the virus that causes COVID-19. Participants will provide nasal, oral, saliva and blood samples.

The trial is for adults, age 18+, who must enroll into the trial within 7 days of their housemate's onset of symptoms and positive coronavirus test. Compensation provided. To find out more and to inquire about enrolling, please contact us at

216-844-4444 or at covid19research@uhhospitals.org
